food hubs**

Purpose of hubs:

- Help home gardeners donate their extra garden bounty.
- Connect neighbors and communities to fresh, healthy, hyper-local food.
- Reduce waste.

How hubs work:

In neighborhoods throughout Ithaca, a 'Hub Holder' volunteers their porch as a drop-off location for produce. A 'Hub Team' transfers the food to FDN for redistribution to local meal programs, food pantries, and individuals.

The mission of Friendship Donations Network is to rescue fresh nutritious food from stores and farms that would otherwise be thrown away and redistribute it to our neighbors in need.
